CLEANING DEGREASER

DEFINITION

DA-93 is a degreaser particularly designed to clean the surfaces to be painted that have the appropriate characteristics for such application.

DA-93 is not a very aggressive degreaser, suitable to clean the grease and silicone from the surfaces to be painted, without affecting the degreased surfaces. So, DA-93 is an appropriate product for the cleaning of plastics and eliminates the silicones and waxes that are used as mould release agents.

DA-93 is a slow degreaser that allows the surface to be cleaned and dried with a cloth, thereby removing the pollutants from the surface. The new formulation of DA-93 can be removed easier because it is a less grease product what it allows faster works.

PHYSICAL CHARACTERISTICS

Nature:	Aliphatic thinners
Colour:	Colourless
Specific weight:	0,8 kg/l at 20°C
VOC:	750 g/l

SAFETY

Follow instructions of product label. For more information check the Safety Data Sheet. Compliant with the National Statutory Regulation for Health and Safety at Work and Waste Disposal.

STORAGE

Store the product in a ventilated place far from direct exposure to sunlight. Keep between +5°C and +30°C.

GUARANTEE

In unopened original packaging, one year from manufacturing date.

For any technical information contact with our Customer Attention Service or our Technical Department. ROBERLO SA declines any responsibility due to an incorrect use of the product.
