

**REFILLING MACHINE PNEUMATIC**  
**Professional aerosol filling machine**

**DEFINITION:**

The **REFILLING MACHINE PNEUMATIC** allows pre-fill spray paint cans (already containing propellant and specific additives). The machine fills both 400ml and 150ml cans.

**PROPERTIES:**

- Robust, stable machine, suitable for filling medium size orders
- Easy to use
- Portable, removable piston
- Pressure regulators (working pressure 7-8 bar)
- No power supply required
- Compressed air adapter
- Suitable for filling 400ml and 150ml cans
- Suitable for filling 1K and 2K systems
- Suitable for water-and solvent-based coats

**TECHNICAL CHARACTERISTICS:**

- **Description:** Exterior: Case made of stainless high-grade steel with door, operating controls and control display, base plate and compressed air condition; Interior: Mobile lifting device with stop plate, cylinder as paint receptacle and intended holding device, mobile piston and adapter for filling.
- **Measurements:** 32 x 25 x 78 cm
- **Working pressure:** 7 - 8 bar constant
- **Capacity:** approx. 35 cans/ h (without colour change, depends on the viscosity of the paint)
- **Max. filling viscosity:** 100 s/DIN 4 mm
