REMARKS

If required the clearcoat can be polished, once the area has fully cooled down.

Humidity affects clear coat components so the application equipment should be absolutely dry. Close the hardener container immediately after use.

When relative humidity is higher than 70% and/or temperatures lower than +10°C it is recommended to dry at 50°C.

EQUIPMENT CLEANING

Use a cleaning thinner before the pot life has expired.

SAFETY

Follow instructions of product label. For more information check the Safety Data Sheet. Compliant with the National Statutory Regulation for Health and Safety at Work and Waste Disposal.

STORAGE

Store the product in a ventilated place far from direct exposure to sunlight. Keep between $+5^{\circ}$ C and $+30^{\circ}$ C.

GUARANTEE

In unopened original packaging, one year from manufacturing date.

SUGGESTION:

For complete repairs and/or high temperatures, the use of KX44 improves the application and finish. Remove the masking tape before drying to assemble.

For any technical information contact with our Customer Attention Service or our Technical Department. ROBERLO SA declines any responsibility due to an incorrect use of the product.
